Overwhelmingly communities endorse Kids Voting as an opportunity to bring people together and reconnect them with their government, while instilling the value of citizenship in our children.

We are extremely pleased that several of our nation's most prominent leaders have stepped forward to work with us or lend their name. Our Honorary Board includes Walter Cronkite; Bill Moyers; Congressman Barbara Jordan; Senator Barry Goldwater; Reverend Hesburgh, President Emeritus of Notre Dame University; William Peltason, President Emeritus of University of North Carolina; Governor Madeline Kunin of Vermont and William Friday, President of University of California at Irvine. Our working board is equally impressive, people listed on our letterhead.

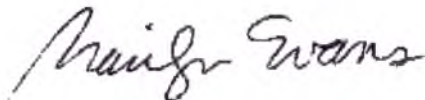

We are very proud of the interest and involvement in Kids Voting of native americans in Arizona. Last year 13,000 of 20,000 Navaho students "voted" in Arizona's second statewide Kids Voting USA.

We hope to capture your imagination so that you will join our efforts. We would like you to serve as a Kids Voting USA board member. We would welcome direct involvement, because we have great opportunities and challenges ahead as we plan to expand to every community in our nation, but will be very pleased if you decide to serve as an honorary board member.

I will call your offices in this regard. We have taken the liberty of sending a packet of information about Kids Voting.

Best wishes for continued success and thank you for this consideration.

Sincerely,

Marilyn Evans
President & CEO
Kids Voting USA
