Dear Mr. McCarthy:

Thank you for your
recent letter. I appreciate
your interest in Native people
and issues.

perhaps the reason my
name came to you is because
I have a message for
you. The message is
simple. It is not true
that Native people have
~~been~~ been almost destroyed
by alcohol. While
alcohol is a significant
problem in some Native
communities, the majority
of Native people do not
have alcohol related problems.
In fact there is a
revitalization of Native
culture that is very
popular.
