

## G R I E V A N C E

respectfully submitted by Warren G. Tyon  
March 15, 1993

As with any office, it is the practice of the Department of Radiologic Technology to use office forms. Two such forms the Radiologic Technology Department uses are the **Clinical Rotation Observation Record** form and the **File Notes of General Advisement and Student Conferences** form.

The Clinical Rotation Observation Record form perpetuates Professor Curcio's undue influence on the grading system in the Radiologic Technology Department at OUHSC. As a result, I was a victim of unfair grading by her subordinates: Professor Hunter, Spring 1992 semester, Professor Esparza, Summer 1992 semester, and Professor Beverly Gay Bryant, Fall 1992 semester. The disparate treatment I received from these individuals became evident to my classmates Phillip New, Bobby Vo, Mike Kelley, and Desira Chambers.

The **File Notes** of General Advisement and Student Conferences form was used disparately to build up my folder so as to have an adverse impact on me resulting in suspension from the Radiologic Technology Program. The File Notes form is instrumental in perpetuating the undue influence of Professor Curcio and Dr. Sullivan. The File Notes in my folder represent the evidence of duress as a result of the perpetual harassment I experienced as a student of the Radiologic Technology Program at OUHSC. These File Notes continue to have an adverse impact on me.

The following are a chronological order of the events that
