Dear Chief Mankiller;

Thank you so much for inviting Indian Country Today to the workshop on Cherokee history. It was excellent and gave me a lot of story ideas which I hope to pursue in the future.

Here is a copy of the book "Ishmael" that I told you about. At first, it might not seem like it has anything to do with Native Americans, but read on - it will.

I would be very interested in your response to Mr. Quinn's arguments about leavers and takers. I think he would be, too. I've added his telephone number to the back of the book where he includes an address if you'd be interested in talking to him. He has told me that he would really like some feedback from Native Americans on this.

Hope to see you again,

Sincerely,

Jean Morrison
