Dear Chief Wilma Man Kille

I am thoroughly saddened with the news of your retirement. You are young and have many more snows to make tracks in. But most important I hope that you are happy in your retirement.

I wrote you once that I believed the Nation had in the past been governed by a female leader. With considerable research I found this book about Nancy Ward that you may be interested in. With leisure time at your disposal soon, maybe it will help you catch up on your reading, which you obviously have donated quite a bit of time to. You are one of the most well educated leaders the nation has ever had. You've been a regal tribute to the nation,

Yours  
Sam M. Matthews
