Charlie and I ~~met you~~ at the British Embassy and again at a fund-raiser for Voters for Choice in Washington, D.C. Knowing of your interest in Native American history and issues, I have enclosed a copy of my recent book which includes personal information as well as historical and political information about the Cherokee people. I recall you mentioned playing Geronimo in a play entitled "Melons." What was the play "Melons" based on? A book or a screenplay? I would love to read it.

enjoyed speaking with you

On _____, the Cherokee Heritage Center will host an annual Art Show and opening of an outdoor drama which chronicles the events preceding and immediately following the Trail of Tears in the late 1830's. If you are in the United States and have an interest in attending, Charlie and I would love to host you and your significant other for the week-end. We live at the end of a dirt road in a lovely rural area surrounded by trees, flowers and small animals like rabbit and squirrel.

Please let me know of your interest.

Best wishes to you. Charlie and I enjoyed your tremendous talent in Schindler's List.

Sincerely,

WPM
PC

Nita: Please get the dates for the art show and drama opening and put that in the blank. Also get a book from Heritage Center and send along. Troy can donate that.
