Dear Wilma,

I guess I am going to bother you once again about the proposal we have with Andrea Taylor, at the Ford Foundation's Media Program. You mentioned you might inquire about it and help steer them toward a positive decision. They have been holding the proposal, which involves a self-sufficiency development plan for the Akwe:kon Press, for about nine months now and I sure would like to know what they are thinking about it.

Also, when we talked in Atlanta you mentioned a script you wanted me to look at. How goes it?

I hope all is well with you.

Sincerely, ✓

Jose Barreiro
