

7. Robin Lakoff

Language and Power in Public and Private

In first paragraph cut words in parenthesis in first sentence. This is the only cut I can suggest.

8. Maxine Harris

Mental Health and Illness

The only section I would suggest cutting is the discussion of the rest cure on page 2.

9. Mary Romero

Domestic Science

Cut the sentence beginning with "Rules were set..." on page 1.

10. La Trese E. Adkins

Womanism

While I found the biographical information about Andre Lorde and Alyce Walker interesting, the article should more broadly describe the concept of womanism.

11. Patricia Ireland

Feminism, Electoral

This is a piece about NOW. On page 1 I would cut the first part of the sentence beginning with "Because tax-exempt groups like..." and just begin that sentence with "The National Women's Political Caucus".

On page 2 eliminate the second sentence in the second paragraph.

Also on page 2 eliminate the last sentence in the third paragraph.

On page 3, eliminate the sentence beginning with "In the late 1980's..."
