

We would therefore suggest, and in suggesting we would direct the officers of our Government in the same, that an effort be made to get a change in the manner of the Sale of Said Coal and a Asphalt lands and deposits so that:

- 1st Whoever sells said land and deposits shall have Authority to sell them either at public Auction or private Sale according as the interest will be best protected, and that in either event the purchase price shall be approved by the President before acceptance.
- 2nd That the leased and unleased coal lands be put on the market without discrimination one against the other.
- 3rd That said coal lands be sold in any amount not less than forty acres, to suit the purchaser. Provided, Always, that the best price obtainable shall control this discretion.
- 4th That the coal lands and deposits be good and sufficiently advertised to insure a fair sale of the same; and that this resolution shall take effect and be in force from and after its passage & approval.

Bill No 48.

Memorial

Asking Congress to enact a game law effective in Indian Territory

Whereas: The destruction of game now in progress in the Choctaw Nation is of such a character that unless some relief is afforded game will entirely disappear;

And

Whereas: The present law seems wholly inadequate to protect the game from the hunters who flock here from the States without let or hinderance from any source.

Therefore

Be it resolved by the General Council of the Choctaw Nation assembled,

That Congress be earnestly requested to enact a law for bidding the further destruction of game under such penalties as may be deemed proper and that this resolution shall take effect and be in force from and after its passage & approval.
