of this nation. American Peace must visit
your country and ask some property
three cattle & other personal property
for which he had no title. The property
belonging to another person -

I desire this way of doing business - the
U.S. and somewhat request you to notify
your people. not to trade any more
with our people for property. unless
our people have a permit to ask
or take their property. this permit to
be signed by either District Judge
or some chief -

This will obviate any and all cases
of trouble on account of property
between our people
