

Seminole Nation I.T.

July 28th 1884

Hon. J.M. Perryman

Princpl, Cheif Creek Nation I.T.

Dear Sir:

A deputation from the Anadarko Agency representing the affiliated Bands of that Agency, visited me a few days ago, asking, that I should appointed one or more persons from this nation to meet with them in Council at an early day as possible, to advise with them in determining the best course for them to pursue under the circumstances, and to ask your nation, the Cherokee, Chocklaw and Chickasaw to do likewise.

If you think it proper I would suggest that you appoint the time of such a meeting, notify the other Nations, and ask their attendance at same; advise me of your action in the premises in order I can notify the tribes at Annadarko.

The object sought to be effected by these Bands or Tribes, in asking us to visit them, Seems to be to dissuade some of this people who manifest a willingness to relinquish their title or just claim to their territory and accept a small portion of Same in lieu thereof from such a Course, to which the others are bitterly opposed. They claim that should these misguided men" persist in their resolutions serious trouble will come upon the whole people.

Your late Delegate to Washington, Capt. G.W. Grayson, I am told, is better acquainted with the particulars of the land claims and the complication contingent upon same, arising mainly by the course persued last

winter, "by a delegation headed by one Guin". So far as the misunderstanding among the Indians themselves is concerned; So I will not attempt to enumerate them in this.

Trusting you will deem the matter one of sufficient importance to require your early attention.

I wait to hear from you and remain

Very respectfully

John Jumper            his
