Hon. C. Guy Cutlip,
Superior Judge,
Seminole, Okla.

Dear Judge:-

Re: Dotson v. Brewer.

Thanks for the opinion in the above cause. I saw Judge Arnett in the court house at Wewoka and ask him to mail me copy of everything as per his promise as I wanted to be prepared to present this matter to you. To this day I have never received the copies or any one of them. A few days ago about the time I wrote you I got a brief. Why they did not wish to supply me and keep their promise I am at a loss to understand.

However, you are a great judge, greater than Bob Williams. When I was in Bob's court one day he advised the attorneys: 'that we had no sense, we wouldn't help the court and that was what was the matter with the country, that we expected him to look up the law, try our lawsuits, and he was not going to do it.' You have gone Bob one better. You have looked up the law and provided me with a most excellent opinion showing that you have carefully drawn the line of demarcation, speaking from a legal standpoint, through all these contracts. The only difference between you and Bob Williams is that you will treat a lawyer most courtesously and permit him to try his lawsuit, and Bob never let a lawyer try a lawsuit in his court in his life.

Again thanking you and with best wishes and the usual season's greetings, and assuring you that I will think of you when I am enjoying Christmas and New Year, I am,

Sincerely yours,

W. W. Pryor
