

and next plan for the Indian people will be how to get their education and their health problems. Medical care such as clinics, hospitals, we have at the present time. Lots time I read a paper through it was the early day and the activities for the state college I think it's a great service to be accomplish to educate the white and to the Indian world as well as to educate the Indian to the white people. Seldom have I seen Indians burning, looting, few clothing, and throwing beer bottles and not bathing, now I find a lot of that. So sanitation is keeping clean, and I think that's the Indian people biggest problem. That's way we are trying to help the Indians by modernizing their homes. I have eleven counties to work with and it makes it kinda difficult to spend too much time with every family of Indians that I visit. But anyway I do try to spend my time with them and explain a lot of these things and not take too much time in a way that they might understand these things. Considering this fact, we almost (not clear) in the minority including the minority to participate in activities which we have at the present time. Lots time I hear about the Indians are the Indians are the (not clear) concerning Indians. I am now reminded of a story I read once when I was a child being ill in bad health. But as they went on. It seems, that mother did contact them for the consolation about her young son which was living with her. She informed the doctor her son couldn't seem to tell the truth. Each statement he made was full of things which didn't seem to be true. She informed the doctor that each statement he made was full of things that wasn't true. For no reason he seemed to refuse to tell the truth, that simply, lady, you kid is a liar, which I should've said while ago but I didn't. I believe we must think in these terms when we discuss Indian problem. I'm not talking about someone else's kids. We're talking about her own recognizing the fact that we must individually and collectively move toward a solution. Well we must insist that be directed
