

Virgil Harrington: I'd like to ask that all the council members be sure to come up and sign the--these sheets that we have up here so we can attach it to your voucher and get you paid by me to-night, because you know the Bureau agreed to stand the cost of the elections, didn't cost the tribe anything. (not clear)--If you will sign these sheets, there will be two or three of them, be sure to sign one of 'em and you will be paid--Judge (name not clear) can tell you when it will be paid. (conversation in background) And the other thing I would like to suggest--we would like to meet for about five minutes with the committee after everyone signs the payroll sheet, so we can arrange the first meeting with the committee. It is a pleasure to be here with you again and we look forward to working with the committee and help to work up the election as soon as possible and the indication earlier--we will get these constitutions run off and copies be sent to every council member and everybody else that wants one.
