

Well I forgot. They said I was seventy-one.

(So you came over here to Oklahoma when you were--)

I ain't got a tooth in my head.

(Well you did pretty good.)

Huh?

(Don't you?)

Oh yeah.

(You don't look seventy-one or anything.)

Linda, that's my daughter here you know, she said I look better without them than I did with them. That's the reason I don't wear them much. I wore them just a little while before you come today, Took them out to rest a little. (laughter)

(Rest your teeth.)

Yeah some people claims it don't bother them a bit. I can't say that. Mine bothers me. Seem like I get them in my mouth is too full. Something like that.

(Probably you haven't got adjusted to them yet--you know.)

I've had them over a year. Should be if they aim to. I never have slept with them in or nothing like that. The uppers I can sleep with them but the lowers is what kind of bothers me. I guess if I'm not doing something I don't notice but I just kind of sitting around and I ain't been messing around much today and they bothered pretty bad. So I laid them up here and let them rest till in the morning.

(Yeah that'd be better)

(You moved over here--your whole family did--when you were about forty-- or you just moved by yourself?)
