

(Road construction, people building roads?)

Yeah. Building roads, working on the roads. And course, they was using teams and things you know, and she come over there to see what was the matter.

And I told her I said, "I don't know what's the matter with him." And she said, "Let me have him." And she took him and she had me to milk some breast milk in a spoon. She had some camphor and she poured a little camphor in the spoon and then she poured it all back in the bottle and had me to milk some breast milk in the spoon. And I give him that breast milk. Well he hushed and he went to sleep and he slept all night. It scared me to death.

(Thought something was wrong with him sure enough.)

I thought something was wrong with him.

(You stayed up all night watching him I guess.)

I did. Just like I stayed up all night a many a time watching you. Afraid you was going to kick the bucket and there wasn't anything.

(After you found out I didn't have any heart.)

When I heard, I thought your heart was on your right side, which it was but I didn't know it. I thought you had a heart condition.

A TRIP TO PEGGS IN EARLY DAYS

(You was telling about you and dad doing a lot of walking or hiking or something or was it dad?)

Oh we went, well all of us one time. We went down, we took the kids after we got Bob's kids you know, we taken them when Dan's brother, half brother died.

(Is that Bob Bowen?)

Bob Bowen. He had three boys. And you was two weeks old when Bob died and I taken all three of them boys and had you and Bert and Nobbie. And we started to Peggs.

(Six of us, wasn't there?)
