

Yeah, but I don't remember now just what it was. I've heard it, but I don't remember just what it was. I have a brother-in-law and he's learning on his own. His daddy talks Cherokee. My daddy talk Cherokee, but I never did. But this kid is learning to read and talk it.

(Well, isn't that good.)

He has read it. But I don't remember just what that is that's on there. Couldn't be too much because--

(No, couldn't be.)

It's not too many letters. And I guess that's the only tomb rock that does--in this area, that has Indian inscription on it in writing. Some like that on all those older tomb rocks. Well we don't use that at all now.

(No, Everything's very plain and uniform.)

Now that old tomb rock over there at the Starr cemetery, Tom Starr's, I guess that must be hollow. See its about that, like that, you see. It kinda comes up this way and its got a top on it. And I know money hunters one time had took and--you can see where they drove a screwdriver in there and took the top off and --

(Well)

We had a fella did some work on the monuments there. We had him to fix it back on there. Then of course the biggest tomb rock there of Cross Starr, why its was hauled in there by ox team from Ft. Smith.

(Well.)

But then lot of them tombrock over there are gone but not forgotten--stuff like that. There used to be an old hewed cedar-log house and--

(And that was Tom Starr.)

He was the original one of all that Starr group. Now that--course now he's related to that Stillwell bunch.

(Yes.)
