

We all got to laughing and he woke up. And after he pulled ayl this paper off his face, he gave him a quite a talk and oh, I don't know, he gave him $15{ }^{\prime}$ demerits for going to sleep. And I think.each of us 5 demerits for putting that paper all over his face. GRADES:
(Were they pretty strict on your study habit's and the grades you made, and did they require pretty good grades?)
0h, yeah. They came around quite often during study hour. That's how ire came to catch that boy in that condition. We'd covered his face with those little wads of paper balls and dried on there and we'd started on a second coat over him.
(How often did they let you go home or did you go home when you were in schoot?

Oh, I didn't ever go home until the end of the term myself. I was there all together about 27 months. $\ddagger$ finaily run away from. there.

STAYING DURING THR SUNGER:
(Hy: Tyner didn't you tell me this afternoon, I don't know whether we recorded it or not, that you and someone else stayed there one surmer?.)

Yeah, pob̆ Sanders:
(Bob Sanders. And what did you do there? Was that when sehool was out?) He swept the halls. Did a little painting. Got ready for next term. We had the building up in good shape.

SIZE OF BUHIDING:
(How big was the building? -I don't-think I ever got --)
I think it was a front with two stories. Wasn't it? Most of it was two stories and then parts of it were three. stories.
(Remember how many roons they had in the building?)
Duncean: I dop ${ }^{7}$ t.
Hyner: - Well, believe there was in--I believe 60 was--each one was mumberea $62-1$ Yell, capacity was--mumer of boys at school about 800 there all together. I oont remember, lot of rooms, were four in room. Mr, Duncan: All those roons up-
