He drums for them, brums for them allaround. And the third man, last man, he goes he does the same thing. He drums for each man, plumb around. It be about morning then. That's the way they conduct their meetings. I see that and after they get through in the morning well he say well alright, you boys go ahead and smoke now. Then we go ahead and smoke. I don't know, they got it somewhere. They got another round house just right west of Hominy. They get their door west and they set their moon west. That's the first time I know about that. I been going to meetings, but I never did see any door going out west, and moon that goes west. Long as I been going, Caddo way.

(Is the Caddo way different from yours?)

Oh yea. Yea.

(How is it different?)
