

ROADS IN EARLY DAYS

(first of sentence not clear)...trees out in the road. I think they're going to improve all the rest of this someday.

(Of course around state here. They didn't have too much to do, I guess.

Didn't start. Didn't have any--)

Didn't have anything to do anything with.

(Didn't have any road equipment at all.)

Oh no. They just team work.

(Yeah.)

(comment by Mr. Fields not clear)

(Yeah. That must have been pretty hard going.)

But look at the good roads we got now: All over these hills.

(All through there.)

(first of sentence not clear)...dirt roads.

(They made lot of improvements.)

And in ten years from now I don't believe they'll be any trees left.

(I doubt it. No sir. The trees are disappearing fast.)

Yes sir. Now this is like a prairie out here.

(Yeah.)

Used to I been over here when you couldn't get in here hardly when Jay first started.

JAY, PINEY, OTHER SMALL COMMUNITIES

(You mean Jay was all growed up in trees.)

Oh all in trees, yeah. I come down here one time with some boys on kind

of a picnic. We heard they was having a picnic down in here. With

these boys (not clear) you know. I know where we come there wasn't

nothing. We didn't know where we were. Well, we ask everyone to lead

us out of here by a trail.
