                   about that high.
 (Yeah.)
 And the berry about that big around. And they say it's good for
 everything.
 (Well.)
 But it smells awful.
 (Full of stickers, isn't it?)
 Yeah.
 (What is it they call that one?)

In Cherokee-oo-ta-tun-t
 (Oo-ta-tun-ti)
 They grow about that high.
 (And that's just sticker on top.)
 Sticker about that big. /static/ They blow out the seed, black

 (Mumps, well.)
 Get leaves, you know. Kinds smash 'em up and then put 'em on the jaws.
 (Yeah, well.)
 Try any other thing.
 Ome tree root - call it blachaw.
 (Oh yeah, it smells bad. /laughter/ It looks good, but smells bad.
 And there's only one other thing I know that looks good and smells bad.)
 There was one standing f ight there. It was that gigh. And I just
 dug 'em up and set it right over there. Made itself good in one summer.
