

and that.

Bones, for years, when the boy scouts moved in there.

(Where half face is buried.)

They took everything out.

(You mean the Boy Scouts took the bones?)

Yeah, they took the bones out I guess..somebody. But anyway that cave is right along that ridge there. See that flat rock there?

(yeah)

Right along in there . A hole about like that. Goes way back in there.

(What's his name?)

Half Face.

(How do you say that in Apache?) (Apache name)

They buried him there.

(Who put him in there?)

The Apaches.

(Were there any particular Apaches that did it though?)

Yeah, the Kiowa Apaches.

(But were there certain men that brought him over here and put him in?)

Yeah, men you know.

(Did his family bury him?)

No, men.

(Just some men?)

Yah, Apache men. There's no certain, they didn't have no certain guys to do that. Just all volunteers.

(Did men like to do that?)

Nobody does. Heheh. That it, I don't. All volunteers.

(Did they do anything after they buried him there?)
