

No, just about ten, fifteen, sometimes twenty dollars a week. Just whenever I asked them.

(Did you have other income?)

No just when I work. After I got hurt my butane went out and I made lots of debt. I didn't get anything through the winter. I started unemployment \$38.00 a week and it don't go far with a family to help. We've been really struggling along. If I ever can get work, I hope things will work out.

(Back when you were young, what kind of transportation did you all have?)

We just had wagon. They sold cotton and bought a car. We use to go to church in car, but before then we traveled in wagon.

(Do you think these days are better than your young days? Had you rather live like you use to live?)

Well, now it's good I guess, cars are fast, but its expensive and gasoline are high and if no money we can't go. And now on highways its lots of death. Wagons were little better I think.

(What you think about the generations now.)

Well, its different from what it use to be, unless it's where I don't teach my kids right. But young generation is altogether different.

#### CHILD DISCIPLINE

(Do you think kids mind better today or back in your days?)

Well, now I guess I don't make them mind or what, they don't seem to mind much nowadays. Back in my days we had to mind with punishment. Maybe now we don't make them mind. 'Cause we love them too much or I just don't know what it is, maybe they get with other kids and learn these things what they do 'cause we don't teach them to be the way they are.

#### FOLK TALE

(Do you know any Folks Stories or Fairy Tales, or maybe your mother and father telling it?)

Well, no (laughter). Some thing like something will happen?
