

in Texas. Indians used to come from Louisiana to attend the Sacred Dance. He said the White Men killed Indians when they came to Texas for the dance and took some women away. Sam Houston found the Alabama tribe in Texas. He told about the history of Alabama Indians. He told about the Alabama and Quassarte still in Texas. Some things he repeats it so I guess this is all. He said the high authority bought land from Quassarte, Alabama and Creek Chief Roley Carnard once tried to make him sell but he couldn't. He found out he couldn't. He says if anything happens to him he had someone to take over. And that he was a good man, humble, and his fathers, grandfathers used to be chiefs and he was an honest man.

Reverend Dan Beaver says he didn't have to go to these meetings at Okmulgee. He says that if he didn't sign papers himself, nothing could be done about the land they have. (Quassarte and Alabama) He says the young Indians are going to be sent by the ocean side, but he didn't know when. He talked all in Creek language. I had to, too.

(He repeated a lot.)
