

that got good word in it. Make you feel like dancing, when they singing some songs. Sometimes that got good word in it. Make you feel like shouting, you might say. Well that's what..almost something like Holiness.

(Oh, so everybody didn't get up at once and dance?)

No, no. Just certain fellow or certain womans they want dance. They stand in one place.

(What kind of a step did they do?)

Well they just standing right in the..standing in one place.

(Like the Blackfoot step?)

Not exactly, blackfoot, sometimes they..(here Louise describes lifting the heels off the ground.) but this one is like that (describing a slight bounce in time with the music,) Yea, sometime women they get that..oh what they call that. Like Holiness you know when they feel good, they get rolling around. Sometime they get that way.

(What did the white people around here think about the Ghost Dance Church?

Did they try to stop it?)

Well, among the Kiowas, this one man they said he didn't like this, so.. this Ghost Dance. So he's the one..quit..make the Kiowas quit. He's name is Chief Apitone. He's the one..that Ghost Dance went on. He thought it was his wife was going in there and taking part in there and I guess he didn't like it so he made it hard, and told the office that they didn't want the Kiowas to have that kind of church anymore. He said it something ..sin, he said. No it ain't no more sin. Pray to same God but lot of people taking it that way just because they against it.. So I guess they quit.. they make them quit. Told them, not have it anymore course they used to be law here.
