

man doctor, OldMan Josh.

(What happens to the medicine when these men die?)

Well the way they done with the old man's I think they just bury him with it, his outfit. They don't keep anything. They just bury it. Cause they say that thing ain't fit to keep. I don't know. It ain't know good the claim. I don't know what's the matter about it. They know but I didn't All I learn. It ain't fit to keep cause you don't know anything about it. You might go ahead..that power, that medicine is powerful, they say and you might do something where you're not supposed to do. You might go ahead and do something you shouldn't do. Then there you'd be. And that's the reason they don't keep nothing after they're gone. They destroy it they bury them with it. That's what they done to the Old man, Old Man Jose. When he passed away, they just got all of his medicine and just put it in his box and buried him with it.

(What happened to Old Man Saddleblanket's medicine?)

They done the same thing too, I guess. I don't know about what all they done about him. I don't know nothing about him, I just know about this old man cause we stayed with him, around him most of the time. Well, during the day you know, Winner and I and Johnson get out. Play around the home out there. Go around hunting, fishing, We was young then. But I never..Johnson he's just a little fellow, he and Winner, young.

(What about Dabeko, was he a doctor?)

They claim he was a bad man. I don't know too much about him. His story. All I learn, he's pretty bad man. And he witch you. What they call witching. But I don't know nothing too much about it. All I learn was that he was powerful, pretty powerful. Big doctor, Indian doctor.

(How come somebody witch somebody else?)
