

very few of us left, too, of full-bloods. We are here, but I think sometime, I think we're doing a little better than they did 80 or 90 years ago. Everybody had to work, you know. They work for themselves. They hunt. That's the way they raise us children, us older ones. They hunt and look around something for us to eat. And they didn't have no houses. Some had to live in teepee. But now today when that money come in, look what people are doing. I think they should hold onto it. But no, they didn't.

#### LIFE HISTORY MATERIALS AND HEALTH

And like I tell my story I was raised up poor way and I'm going to live that life. I'm going to live the poor ways all the way through. The way I was raised. That's the life I'm going to live. But I am going to live for God. I'm going to live for God. As I get myself in and I'm going to live that life. I promised him that I will. And God's will, I'm going to live that life. Because I'm just here and that's all. And I don't know when I'm going? What day that he's going to come after me? That's why they--the (Osage name) watches me pretty close. She comes and I don't have nobody here. But the boy stays with me of night and they go to school. And then when they're playing football, well they're going to hire a woman to stay with me while till they come back. And I guess tonight, well, they're going to have a lady. That lady that was here she's going to come back and stay with me while they go to the ballgame. And then they boys are playing. That oldest one is playing of Frances too. And when she comes back well this woman goes home. Frances is going to stay with me tonight. And tomorrow evening--tomorrow night Freddie is going to stay with me. Saturday evening he is going to read the Bible to me and Sunday school lesson to me tomorrow evening while he comes. They try to keep me awake, but (Osage name) I can't. I got to go to bed at 8:30. I'm still that way yet. I get up early. 'Cause I get up about 5:30, and by the time I get through eating, it will be about 6:30. Sometimes I get wake up about 6. I don't like to stay up late, but he's going to keep me awake tomorrow night. He told me to walk. Get outside and walk, sister. Limber yourself.
