

(Take that much off.)

Put it on your -- .

(Unidentified voice: On the payment.)

Ah-huh, payment.

(That's good.)

Maybe they told some them that the house is \$14,000 home or maybe \$13,000, and it will take about 17 or 18 years to finish it. They told them if they don't miss one payment through all months to come they can finish payment within 13 or 14 year. The Housing Authoried, we will have -- Thomas Yahola he works under the Missey Wood in Ada. They are training that boy, and if he get to become a Director, we are gonna have our office here in Wewoka. If we have -- we have secretary, bookkeeper, we are gonna need worker, and we'll need lawyer. We were ask, are we gonna look someone for that position, we told them that Thomas would do that. I ask Leon, if he wanted the job as a bookkeeper. He said he could make more money. He didn't want that job, that's the way it goes. When I ask him, I thought it would be a good idea.

(You said Leon, I was thinking about David.)

David talk like he would like a home built.

(Unidentified voice: (not clear) . .)

Down there.

(Unidentified voice: To live down there.)

(That would be good.)

But he wouldn't have no job around close.

(But he have one anyway.)

He can get one. He'll probably get one from the oil company.

(I mean can he build a home, if he's not here. Some day he might come back.)

He can put in application. He can, if he could.
