

In nother girls room talking. She would holler at us and say, "Talking too loud girls."

(What did you talk about?)

Oh, we'd tell stories about what we do. You get punished. Everything you do you get punish. You'd get tired and get punished.

(And what other things you got punished for?)

Oh, I don't remember.

(How did the people in Muskogee act toward students at the school?)

They alright. They like us and when we crossed the street they watch us. But one of us students got run over by a streetcar. She was hangin onto me. She fall and another girl pull me like this. When she pull me and she pull me in there too. I'd get run over. It was a accident. The girl..after she left the streetcar her heels turn and she just fell on under the car. Wait, wait, wait. I hollered at the driver. "There's a girl under the car." He just took off and she just hang on to me. After the car hit her she hold me off and she just hang on to me, tighter and I just keep goin under too. I pushing back too and a ritl grab hold on to me. Pulled me out. She died right there. Crushed her head.

(Who was driving the car?)

White man. We all hollered. All the girls hollered but he just took off. He said he didn't hear us. So many of us talking..

(Was the driver a friend of the girl?)

All of us friends, we all girl friends.

(Was the driver a friend of the girl?)

No, he was just a driver. Come after us from town to take us home and take us to town. Travel on a streetcar. Pay to get off. Got to get off easy. "Be careful."
