I don't know.

(Why did you leave the school?)

I got tired of it. I got tired of going to school. I quit that school and I came home. I stayed at home for about three weeks. And the school supervisor would be after me to go to school - go to school. I'd say I don't wanna go to school. I'm getting too old. I just don't like school.

(Were there any other reasons why you wanted to quit?)

Uh-uh . (No) , I just don't want to. I gonna stay home with my folks. I been gone way from my folks since I was four years old. They start me to school when I was four years old.
