

Um-hum. They darned..darned their stockings. Boy's pants..they'd darn em. They'd patch their clothes. It was after school I'd pick out the girls for sewin. At the sewin room. And they'd patch their clothes. If I saw that they got holes in them, I'd take em over there. And they just sat there and sewed and some darned their stockings and socks. I'd just put em in a separate box and I'd bring em back and put em in their lockers. And I'd stop by and give their socks to the boys. Sometimes I take care of boys too. That's how come our checks are so big. I'd work with the boys dormitory too.

(What did you do at the boys dorm?)

Oh, I'd tell them to bathe and then after they get out of school they clean up the buildin.

(Did they have men that lived over there?)

Um-hum. But I wouldn't stay with the boys over there. Them boys get too crazy. They tried to grab me and pull me..I don;t like that.

(Did you ever have any trouble with the boys and girls getting together?)

Um-um (No) I watched my girls pretty close.

(Were they allowed to talk to the boys?)

No.

(Well what were some of the punishments if they did something wrong?)

Sometimes girls run off from school. They go to their homes and someo times they don't go to their homes. They'd stay with somebody else.

But we'd hunt till we find them. We;d find them and I'd go and get em.

(What did they do with them?)

They'd whip em.

(Did you do the whipping or did someone else do it?)

The men superintendents do it. When they whip em some would half kill
