

we had only two who weren't part Indian. We had only two Indian players who were not part Indian. And one of our team members was the mayor's wife. And several of the school board members wives. And we have--we have a pretty good team. And we enjoy working with them. It gives the people around here and the kids you know, the young people somewhere to go. So many of the teenagers, you know, they find life pretty dull around here. But they can come out for the ball game. If they don't hear there's a game they can go out and see the lights and come. And they know we're playing. But anyway we'd like to boost our community. And do things that will benefit the community. I missed your news in the paper." So I know that lots of them appreciate reading these little items that they read in the paper. And they'll say "Well, I didn't know that until I read it in your news." And lots of times we don't get, don't have people call me to tell me their news. But I have to call them. They want to read the news but they don't want to tell me, you know, their news unless I ask them. So it's--you know it takes up a little time to do that. And lots of times I see someone and they'll say, "Oh, Mrs. Fife I know that you did the work toward getting the road fixed and I know you did this and you did that, now this is what I want you to do next." You know, I'll say, "How many times have you been to PTA meetings?" "How many times have you been to Indian Center meetings?" "When do you expect to come?" "You know we have invited you many times to come. Gave you special call to ask you to come. And you don't want to do it yourself but you have something you want me to do that will help
