

leaves the..over there when we start out, why there's different dances going on all the time. That way if you got visitors, they are all welcome to take part.

(Is this the one that you belong to? The one that have all the visitors in it?)

Yes, no. That is yes. I belong to that community bunch. But in other words, I'm still neutral because I go down there when they have the dances. As I say, my brother sings, and so that's why I go those dances. Don't make any difference.

(Are those the names the Caddo call those two bunches? The community bunch and the Meroe Bunch?)

Yes, uhuh.

(Do you remember about how long they have been separated like that?)

Yes, uhuh, oh, about 3 years now.

(Well, is there any different way that they do the Ghost Dance?)

No, they don't do it any different. They just dance it like everybody because they're..there isn't any particular significance. All they do is dance and sing, that's all.

GHOST DANCE STEPS:

(Could you describe to me what the dance is like? What kind of step do people use to dance, and what direction they go?)

Well, you dance sideways just like the round dance of these prairie tribes. And then they hold hands and that's that.

(Did the Caddo dance sideways like that?)

Yes, uhuh, that's always been there.

(Do they have any other dances with names where they dance sideways?)
