

Just so that they don't get it on here and I'll show you the highway it used to go.

(Well, how old a town is Oolagah?)

Oh, it's old.

(Oolagah is an old town.)

Oolagah. A famous place, too.

(This was the home place of Will Rogers, wasn't it? By the way, where was his home place?)

It was a mile north of here, no, it was about a mile and a half north and about two miles east right over the river.

(Well.)

Of course, there's water right on there now and the lake. Visitor messed it up.

(Well, did they preserve his old home place?)

Yeah, but they moved it right on top of the hill.

(Yeah.)

The old house he lived there.

(Well, was this a farming country in the early days?)

Yeah, well, most was cattle country.

(Cattle country.)

Now you can stop right here about that pile of brush right there.

O-T TRAIL

(I surely will.)

Now right here was a highway that--when I was a kid--right here.

(Well.)

It went north right there---see.

(Yeah.)
