

it was before. He fixed everything up where--only things, there's a little hole in the back where he had that pipe running out, from the bathroom.

JULIA MULKEHAY'S GIRLS

Jordan: Before I forget it--these girls that are drawing a thousand a month and still got in on the Sanitation, is that Julia's daughters (Julia Mulkehay, nee Achilta)?

Irene: Yes. I don't know too much about them, but that's just what I hear.

Birdie: Yeah, that's what I hear, too, so I'm sure that--

Irene: We don't really don't know how much money they--but I know their mother helps them with groceries--

Roberta: It's not less than eight hundred a month--

Birdie: Yeah, she helps them out several hundred dollars a month. They all--

Irene: Yeah. Lillie (nee Blackbear) lives with them and she knows.

Jordan: You mean they get that much a month?

Irene: Their mother draws around maybe seven thousand or eight thousand a month. And then, see, they can get on this free Sanitation. We we can't!

Birdie: They even get commodities!

Irene: And they get commodities and we can not get no commodities! Because we have land and cars and things like that.

Birdie: They got the same thing--

Irene: We have to save in order to have a car--to make our payments every month, with the money I draw every month. I even had to get out to pull bolls, even when my husband was alive. That's the way I earned my living.

Birdie: We all did--

Irene: We all did--

Birdie: Machinery took over. Now we can't even pull bolls (Laughs).
