

this address and you can go on and go up to Oklahoma City. And Jack said, "I have to come back again?" And they said "Yes." "And then run back up there?" And they said, "Probably." "You run back and forth to Oklahoma City!" he said. He just let it go. See, he don't have no land or anything. So his Daddy's got a hundred and sixty acres way down at Fredrick. So he said, "Well, go ahead and borrow it and I'll sign with you. But my lease--" See, he gets quite a bit every year--good money, his daddy. So he said, "I'll sign with you and then I'll even help you pay it back, so much a month, you know, out of my money and then you could pay that money back, whatever you need." So he told them that and hoping that they'll go along with it because they know his Daddy's been backing him. "No," they didn't want to. "No, your Daddy can't do that. You're on your own!" See what they do to you? They just make you mad so I don't want to go over there! And my girl was trying to get a job. They were supposed to get her a job. She's a senior. I don't know--they said, "How much money do you all get?" I said, "Nothing!" "Oh, I'm sure you get some kind of money!" I said, "No, my husband's a silversmith. Trying to be," I said. "And it's not for sure every month how much money he gets," I said. So we kinda had it, right there. We just don't care to mess with them. And this Sanitation--I just chase them and chase them and pester them! I caught at the church--

BIRDIE'S DIFFICULTIES GETTING WATER AND TRYING TO GET ON SANITATION

Irene: The water right out there (at the Mulkehay Church) is what they use...

Birdie: Round here down at the highway (?). We bathe with it and we scrub with it and everything. And Jack about choke us because we sure use it!

(Birdie and Jack have to haul their water because they have no well on their place. They usually get the water from the Mulkehay church several miles east of their place. The church is at Boone.) The girls are always washing their hair and he sure gets mad! (They have two teenage girls) I said,
