

(It's just hard to believe that a country would change that much in--
over the years.)

And if we'd had known before we left those fire piles like they are,
we'd had 'em level 'em down.

(Sure.)

Put 'em down to a level or space each.

THIS AREA IS PEACEFUL AND ENJOYABLE--OUTLAWS NON-EXISTENT

(Yeah, it would have been much better. You've had a pretty peaceful
community here compared with other places, haven't you?)

Oh yes.

(You haven't had a bunch of rough necks and outlaws running through
here like they do in some places or have had.)

Yeah.

(Well, that makes it nice.)

SINCE FEWER PEOPLE, WILD LIFE HAS INCREASED--COYOTES KILL CHICKENS

No, it's been pretty peaceful. But I tell you the coyotes has given us
thunder through here. Can't let us have chickens.

(It's now?)

Now.

(Well, that's hard to believe, isn't it?)

And lands back in there, why we didn't know what a coyote was.

(Well.)

Everybody that's got chickens has to roost with 'em. To keep the
coyotes off of 'em. And my brother he might not have a dozen hens. Laughter.

(Well.)

I have to pen 'em up every night and them coyotes just run wild.

(Well, of course, they've got a lot of places to hide here, and raid.)
