

California with half breeds now. One of em got six and the other one gots three. And there's one in Arizona that's got one and then the rest of em round here. They got one of my nephews got three girls. He's got three girls and nother one's got six. And then nother one got one and then on top of that the great grandchildren. And I'm the only one. They been trying, they been talking to me. They been trying to get me to to get all my great grandchildren and my grandchildren and take pictures since I'm the only one left. I haven't decided yet where and how, when they gonna take it.

(That would be so nice.)

Yea. It's ah, it's like I said I haven't I'm the type you know, my folks are the type that belongs to the church. And we hardly go any place. Only place we go is, as far as I remember I'm always around the church. Where's there's a church gathering well that's where I'm at. We never was raised around any kind of dances. And in summer time my mother and my dad don't take us to no dances. Nothing but the church life. I never, I just hear about it but I never have been around there and I never have seen anything but they always did say if you are sick you can go and use it for medicine because there's certain way that water it'll that water will help you. (Note: informant strays from topic here.)

(Where is this?)P(Is this at Tsoltone?)

Yea, this at Tsoltone. You been over there?

(No.)

Well that's it's what they always did say. They always did say it's worth, it's worth a going down there and ah, either some people would take a bath with it. Just dipping it out you know and then just bathin yourself with it. Some people would get it and warm it and put their hands in there. Just like having arthritis or something like that or rheumatism. But that part I never have seen it myself. And it's been long time I've been through there and said it. (referring to Evelyn who is her daughter) Mommy, she said it way different now than what we last seen it. First and the last that's the only time I seen it. I was with my
