

No. I think they go to hospital or doctor.

(Do you have any Wichita doctors now?)

No, perhaps they could be, but I don't know who those people might be, or could be. You know that's one of the things, Dr. Bittler, I always used to tell my father. Why is it that all these things, were never handed down to our people, to our younger generation. Why is that? I said was it because it was simply because they was stingy with what they had. He said, that's about right. I said like when my mother tell us that social you seen what I been going. Maybe not, everything, now you take like different things..like medicine. She said, well it's the people I guess. I tell you another thing one of the things is most of us were never told by members of our younger..my generation was never told that in order to get any kind of advice, or any kind of a teacher from a doctor or anybody, we would have to sacrifice something. Maybe money, or material or a horse, or something like that. Like I want to learn for to use..to tell me about giving a man a medicine to be a medicine man, I would say, well, I'll give you cash, maybe fifty dollars. You would say, what is it, on your mind what do you have on your mind? I say well; I want you to tell me so-so. Well, then well I guess we lot of us didn't know that. Well, in fact I did, but I just never did think I was Indian enough. You know I'm going to tell you something Dr. Bittle. This going to be hard to believe. Just like I told..did you know Don Dietrich..He's a psychologist, wasn't he? Well one day we were talking. I said, now, Don, I could tell you something. But you maybe not believe me. You might think, oh that's hoey. He said, no Frank, I couldn't very well..couldn't just say that'hoey, or..I couldn't just believe it. I would listen to. He said there are many things that we have never heard of many things that we will never know in our span of life here. So well it's .. I saw this..I had a team of horses, they were big horses one couldn't pass water, this horse. God down. I figure I was settled for trouble. So I went up to..I had an aunt up here..about a mile or so. So I went
