

long time.

(Did you ever see a Ghost Dance?)

I don't remember having that Ghost Dance. They use to have it years back

I use to hear them talk about, about it but I wasn't here yet, I guess.

Ghost Dance.

(Did you ever hear any stories about Black Kettle?)

No, I never have heard about him. Nobody talk about him. I read about

him, but I don't know much about it.

SCHOOL EXPERIENCES:

(When you went to school, what kind of subjects did they teach you?)

Oh, arithmetic, spelling, and reading. We had to work in the laundry
sewing room, we had to make our own clothes. We had a big washing machine.

We had to work, they taught us how to work. We would wash and iron.

(Did the teachers speak Cheyenne?)

No, they didn't speak no Cheyenne.

(How did it go then since you couldn't speak any English?)

No, we couldn't speak a word of English but they tried to tell us..we had
to repeat it, whatever they tell us. And yet, we didn't understand. We

had learn how to say lots of things but we didn't know..they'd touch the
spoon, maybe they tell us they call this spoon. See thats the only way

we know how to talk English. They touch different things and they call
it in English and that's the way we had to learn.

(Were they pretty nice the children?)

Oh, they were nice. They were real nice.

(How old were the children that went to this school?)

Oh, some of them went to school before I did. They was grown children..
they grown.
