

1 But, that doesn't matter if there is an injustice, but
2 you have your remedy. If the court has ruled improperly
3 you can go to the Tenth Circuit. But, I do not see where
4 you have established any jurisdiction in this court at
5 all, and I'll have to make my ruling at this time because
6 I have other matters I must continue.

7 The court will state that this court lacks of
8 jurisdiction. There has been no proof that there is any
9 conflict between the constitution or laws or treaties
10 in the United States and the state law.

11 Secondly, if it considered the \$10,000 amount there
12 has been no proof at all as to the \$10,000 amount being
13 involved.

14 No proof was ever made that a treaty giving
15 Indians in Oklahoma hunting and fishing rights nor that
16 lands involved was an Indian reservation, so there is
17 no conflict there.

18 Neither was there any proof as to damages suffered
19 because of denial of the right to hunt.

20 Now, under Rule 12(h)(2), where the court lacks
21 jurisdiction of the subject matter the court will dismiss
22 this action.

23 There are some cases, if you would like, that I
24 can give to you to support this.
