works hard. Maybe he'll work all day, driving a bulldozer. And he's drippled too. And, then he has to come to the meeting at night. I wouldn't feel like calling a meeting, after all that. I don't blame him for getting mad.

UNIVERSITY INDIAN EDUCATION CENTERS AND TRIBAL DIVISIVENESS

(You know, the University has had some centers in this part of the state. Do you know about them?)

Yea. That education...well, that got one here in Carnegie. I guess it's for everybody, but I never did go. They got a setup here...I think Lupe Gooday is head of it. Over here, he works at soil conservation. He's a smart Indian. They have one here, but I never have gone to their meeting. I don't know if it's just for the Kiowas, or if it's for Indians. Well, it's just the Kiowas that meets over there. But I don't think the Wichitas got any. I don't think they have any.

(Do you think the Wichitas would go if most of the people there were Kiowas?)

I don't know. We're hard, hard-headed Indians. Well, I'm a Wichita and they're Kiowas. I've been invited to go out there and discuss things, you know. And I think it's pretty good. But I never have gone to their meetings. But oh, you cannot get Wichitas together! I don't know what a person would do. We live way out here, but we try to get there, because we need a house. Every year, it's the same old cold house we have to live in. You see, this really needs a bathroom. And he was trying to get a loan. Just like I said, they won't let him have it because he don't have no land, individual. I'm the one that got two of them places, but if I put that one up over there, well, if some kind of money comes in on this place, well they'll grab it. Because we have to live on this one. I have to buy the groceries, and I have to see about the car.

DISCUSSION OF WHEELER'S CHILDREN AND THEIR INCOMES AND PROBLEMS

(How large is this place?)

160. The other place is 160. But it's not a good place on this like this. It's got a lot of canyons on it. It's right here. Little running creek on it, but it's sandy. I get three hundred
