

Well, they been asking me, how I'm going to take him, you know.

And then I told them, "Well, since he's his father, I'll have to take him as my father-in-law."

#### BIRTH CONTROL AMONG THE APACHES

(Do many of the Apaches practice birth control?)

They know about them, but they just don't until after they have their babies, some of them. Say about two out of every five marriages use them.

(Do they use the pills or other methods?)

About 3/4 of them use the pills, and then the others use, what do you call it? The loop or coil.....

#### ADVICE GIVEN TO ELLA LOU WHEN SHE WAS PREGNANT

(Did your mother or grandmother tell you anything special to do while you were pregnant?)

Oh, yes. Stay off your back and salt and grease. Don't lay on your back, cause if you lay on your back, the afterbirth will stick to you. And it's very hard not to lay on your back.

(Did they tell you anything else not to do or do?)

Well, not to be reaching up in the air, or....I can work, you know, but not lift heavy things. And swim .....we never swim.

(Did you breast feed Carl?)

Yes. It took me about six months for my breasts to completely fill with Carl. I had to have him nurse and a bottle.

(Is there any way you can tell before hand if the baby is going to be a girl, or boy?)

No, not really. Some say a boy will give his mother a hard time,
