Alright, I give it back to my little brother here. He's here. Heidsick, we call him Heidsick. Some call him...Yeah, that was my Grandpa and he says, I get into a war with different tribes. He says I carry your life. He's my grandpa. He said, if I can't kill your gone too. I carry your life whenever I go fight but I always get out of it and here I'm old now and I give you my name. So he give me that name and I don't see how he's gonna get out of it. He says, another time, he says, I got into a tight place with a gun. There we were and when the gun go off you gone. That was another time and here was aman coming with his gun. He was going to shot me. And I got that medicine and I chew it. He's coming, he gets closer with his gun. Now you know how the gun is, he said, if he hits you, you're gone. And I blow the spit right in that gun and at the same time I was praying to my medicine god. Alright and when he pointed like that he said, the trigger fall off, the trigger broke off. That medicine pretty powerful, and when he seen that trigger fall off he said, "Alright, good-bye smack, I punch him right below his heart. I kill him. I scalp him. That's the way I carry my live. I carry your life that way too he said, He's right if I get killed you're gone too. You wouldn't come. You wouldn't be here. That's Grandpa, Heidsick, he is a big chief. That's my mother's father.
