

I got six of em and they all two years apart. I don't know. There's some have em just right along. They must be about nine months and some they have another one. Just like that you know. And there's a lot of little ones around, and today, yea, they just like that. I don't know why they have so many children. But I think you should control you know. It's bad having a lot of kids you know, but when you're married why you have to have them. When you get married..well that's it.

(How long was it before a woman slept with her husband after childbirth?)

Oh, it's hard to tell. I don't know. Myself, I never did sleep with my old man for a long time after I had my baby. What I went through I won't let him. That's the truth. So that's how come I got for about two years before you know, before I have my other baby. But some of em have right along. Like one girl I know having babies right after year after year. Every year she had a baby. I see her why she's pregnant. Then she has the baby and I see her after that and then she's pregnant again. Yea, I think this time they give you what they call birth control. That might help you. I don't know. It might help you or not. I tell you I never did took any kind of medicine that I could miscarriage or anything like that. I always have to be careful. Pregnant you know, but there's some do that you know. I never did have no operation..never did have.

(How long was it before you weaned a child?)

Nine months. I weaned mine in nine months. Or if they want to they can go..

(Did they suck your breast or bottle?)

Let's see the first two babies I had breast, and then the rest of em I got on..but I had a boil in my breast you know. They call it a car-
