	Side A -20- T-70
•	(You did? What did you raise?)
	Oh, we raise green beans and peas and pumpkins and onions. Anything you
	can raise in the garden.
	(Did you make ries out of the pumpkins?)
	Un-huh.
	(How do you make a pumpkin pie? _ can make it out of a can.)
	Well, you just cook it real done and put your spice in like you do canned
	- pumpkins.
	(Do you just cook the whole thing?)
	Well you cut it up, kind of quarter it - cut it in small pieces, quarters,
	you know, and cook it tell it's real done.
	(Get all the seeds out of it :)
	Uh-huh. And cook it real done - well, not real done. You can much it like
	you do mashed potatoes.
	(You cut the skin on the outside off:)
	Un-huh. Cut the skin off the outside and scoop that inside out and then
•	you just cut it up.
	(Do you stráin it or anything?)
٠	Strings: Huh-uh.
· •	(I thought it had fibers or something.)
•	ow, well, you scrape all that sturf, that seed and other. Luse a spoon
•	and scrape all that stuff out. I have some canned cucumbers - canned pump-
-	kin down in the cellar now.
	(Have you ever eaten dried pumpkin;)
	THIRD VOICE: ((unclear)) Daddy fried it once. It's good. I say it tastes
	good when it's a little bit scorched. Scorched, yes.
	(What do you do with fried pumpkin?)
