

So they won't have no pneumonia. My kids never had pneumonia.

(Was there anything else like that that you used?)

I know lots of things.

EARLY DAY MEN WHO CAME TO THE FARM TO HUNT QUAIL

(Do you have a lot of pets, you have dogs and cats?)

We have dogs, we don't have no cats.

(Are they pets or are they animals?)

No, just animals running around the house. We have bird dogs.

(The ones that point birds and then shoot them with guns?)

Uh-huh. People come from Okmulgee - they used to come to our place every fall and hunt. A lot of quail then but there aren't so many now. Used to go hunting.

(Who would come to go hunting?)

Oh, there was Isma Woolf from Okmulgee, he's dead, John Beaver from Okmulgee, he's still living but he's getting old like I am; Mose Daniels from Tulsa - Oh, there's a lot of them come down. They are all gone, they are all dead now.

(And they would kill the quail with guns?)

Uh-huh.

(Would you cook them right away?)

Some of them.

(Would you use the feathers for anything?)

I would - and duck feathers, wild duck feather, I made a pillow out of them. And I use that pillow, too. Used to go down to Deep Fork and get a lot of ducks, wild ducks.

(It must have been a very interesting life.)

Yeah.
