

Well, it seem so bad. Yea, that's the end of it. But now, she's (Arbutus) over there working for Key..Termite company, with his brother.

(What about your other daughter?)

Well, she's..she was married, had two children. And her husband, he's still living..and he's a Cheyenne. His name Maxie Wolfchief. He hang around Anadarko, all the time.

(What was her name?)

Her names Anne Jeannete Wolfchief. Yea, he always come around talk to us sometime.

(Was she the girl that died of TB?)

Yea.

(And then you had a third daughter you said?)

Yea, I done name her Cecelia. But she was little girl when she died.. I don't kno what said..pnemonia, I think. What doctor said.

(And what about the four boys?)

Oh, one I think, his name DeWitt Hummingbird. He's..I think he had ~~asthma~~, And rest of them, I don't know, I just forgot what kind of sickness they had.(Did they die when they were pretty little?)

Yea, when they were pretty young. Say about four or five years old.

(When the kids got sick in those days what could you do?)

LWell, there's hospital there, but not as good as it is now. We all got a family doctor in town, in Carnegie. Name Dr. Rogers, he real good doctor. He could wait on me too, whenever I don't have no money. That's who we went by. Doctered my family.
