

know, in their insides, stomach.

(Was there any special thing they did for this girl in the ten days after the baby was born?)

Well, sometimes the parents are kind of well-to-do, you know and they can go ahead and butcher a cow, and some people come over and eat with them because they got new baby. That's the way they do, but of course, a lot of them can't do it, they can't afford it, but if some people could do it, it's all right.

RESTRICTIONS ON THE MOTHER AND SPACING OF CHILDREN:

(How long after the baby was born was it before the man and wife slept together again?)

Oh, well some people, I know some people, they can't control themselves, so they go about a month, I'd say about a month and some of them goes for quite long, longer than that before they sleep together again. Yeah, that's the way they do. And some women, they tell me some women, if they sleep with the men too early, why they're going to get their period right back. Of course some people get their period right back. You're not supposed to have your period right when have baby; for a long time. Yeah, that's the way it is. But some go ahead, you know..they sleep together and that makes their period come around. They say that way you get baby right back again.

Well, sometimes they have eight, nine months baby, and they get in foal again. And they have to wean this baby and that baby would be crying for it's mother's breast buy they wouldn't give it to him. Because they said that when you go to nursing a baby while you are pregnant why they said it would make your baby sick.. So you must wean the baby and they tried to feed the baby gravy of anything like
