

BIRTH OF BABY - PRENATAL CARE

(How long before you had the first baby?)

Well, that next year, that next November, see I got married November 24th, and about a year we had our first wedding anniversary, we had our first little girl. Right on November 24th. Her name is Carla Louise. We didn't keep her long, she died. She died from pneumonia. And then we had another one about a year and a half after that. Her name's Margerate. I had her Indian way over there.

(Did you have Clara Louise Indian way, too?)

Uh huh. My grandmother waited on me.

(How long after you were married did you find out you were going to have a baby?)

Let's see, about November, December, January, February. February.

(How did you find out?)

Through a doctor.

(You went to a white doctor?)

Government doctor. At Cantonment, his name was Dr. Hart. He lives here at Cantonment.

(Did you know anything before you went to the doctor?)

No, I just went to the doctor.

(Were you happy?)

Uh huh.

(Did you tell your husband right away?)

Uh huh.

(Was he happy?)

Uh huh.
